

Altovo Cloud — Service Handbook

Version 4.2 · Effective 1 March 2026 · Internal reference document (fictional, for demo use).

1. Overview

Altovo Cloud is a managed document-intelligence platform. This handbook is the authoritative reference for plans, service levels, security commitments, support procedures, and billing policy. Where this handbook and a signed order form disagree, the order form governs.

2. Plans and pricing

Altovo Cloud is offered in three plans, billed monthly per workspace:

- **Starter** — \$49 per month. Includes 3 seats, 5 GB of document storage, and up to 2,000 questions per month.
- **Team** — \$199 per month. Includes 15 seats, 100 GB of storage, and up to 25,000 questions per month.
- **Enterprise** — custom pricing. Unlimited seats, dedicated capacity, and a signed uptime SLA (see Section 3).

Overage on the Team plan is billed at \$0.004 per additional question. Storage overage is billed at \$0.10 per GB per month. All prices are in US dollars and exclude tax.

3. Service level agreement (SLA)

Altovo Cloud targets a monthly uptime of 99.9% for the Team plan and 99.95% for the Enterprise plan, measured as successful responses to the health endpoint over each calendar month, excluding scheduled maintenance. Scheduled maintenance is announced at least 72 hours in advance and is capped at 4 hours per month.

If monthly uptime falls below the committed target, affected customers receive service credits: 10% of the monthly fee for uptime between 99.0% and the target, and 25% for uptime below 99.0%. Credits must be requested within 30 days of the affected month and are applied to a future invoice.

4. Security and data handling

All data is encrypted in transit with TLS 1.2 or higher and at rest with AES-256. Documents are stored in the region selected at workspace creation and are never used to train third-party models on the paid tier. Access is scoped per workspace; there is no cross-workspace data sharing.

- Data residency options: United States, European Union, and Australia.
- Backups are taken daily and retained for 30 days.
- Deleted documents are purged from primary storage immediately and from backups within 30 days.

5. Support

Support is available by email for all plans and by live chat for Team and Enterprise. Target first-response times are one business day for Starter, four business hours for Team, and one hour for Enterprise (24×7). A severity-1 incident on Enterprise triggers a dedicated incident bridge within 30 minutes.

6. Billing and refunds

Invoices are issued on the first day of each billing cycle and are due within 14 days. New customers may cancel within 30 days of first payment for a full refund; this refund window applies once per organization. After the initial window, fees are non-refundable, but customers may downgrade or cancel at any time to stop future charges.

Annual prepayment receives a 15% discount and does not change the refund window, which remains 30 days from the first payment.

7. Acceptable use

Customers may not upload content they lack the right to process, or use the platform to generate unlawful material. Altovo may suspend a workspace that materially breaches this policy after written notice, except where immediate suspension is required by law.
